The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

Proposed amendment

creating on a first computer an electronic business transaction document to be directed to a plurality of recipient parties to a business transaction, the electronic business transaction document being created by a business management software program, the electronic business transaction document including a preferred communication format indicator for each of the plurality of recipient parties of the business transaction, the electronic business transaction document being directed to at least one recipient party in a computer communication format and to at least one other recipient party in a non-computer communication format;

because the raise new issues that would require further consideration and/or search. Office has already issued a response on 26 November 2007 to the pending claims filed 25 September 2007.

In response to applicant's argument that the amendment was discussed during the interview summary conducted 28 August 2008.

However, applicant's invention as discussed during the interview has not been positively claimed by the applicant. As currently claimed by the applicant based upon which the office response on 26 November 2007 was issued. Cited prior art teaches the claimed invention. During the interview it was discussed that the amendment would overcome the prior art if the business document does not include a preferred communication format but just the recipient identifying information, and, the transaction server based on the recipient identifying information determine a preferred communication format for the recipient parties.
